BOW ISLAND LOCALS

The C.P.R. must expect a rush of
business they have double crew on the
Pusher Engine

An Operator arrived on 212 Monday
to work third shift at the telegraph
office. This looks like business

Engineer J. R. Perry and fireman
Harry Mosher have got their old
Pusher Engine again after being in
Lethbridge for repairs. Now watch
the trains go over the hump

Jimmie Perry came down to work
one morning with his usual smile and
said to Art "I don't like to make you
feel bad but "old Boy aint it a grand
and glorious feeling." Why the smile
Jim? please let us into the secret: It
certainly is like old times, to be in
with the fun of the C. P. R. boys, it
makes an old C.P.R. boy feel 20 years
younger (Editor)

Mr. Harry Mosher's furniture arrived
here last Thursday. Harry is a
busy little man these days

Art Garrison is getting to be quite
artistic with the soap now, he says
he will soon be able to tackle one of
the big P. I. engines, good boy Art
stay with it, you have got the tonnage

Talk about "the smile that won't
come off." Jim Perry is wearing it

Harry Mosher has his residence
fixed quite comfortable for the winter

John Hartley is moving his family in
to the C.P.R. section house for the
winter

Hans Jarvis is visiting in Bow
Island for a few days. Hans says it is
lonesome down at Nemiskam
I wonder why?

Chas. Swanson is fixing up one of
the C. P. R. residences in the south
west part of town. It looks suspicious
Charley!

Mrs. Art Garrison arrived in Bow
Island Friday. Another man made
happy

Mrs. Champion and family left on
Saturday night's train for Nelson, B.C.,
they will be missed for they were
good people and we hope they will
have the best of success in their new
undertaking

Mrs. R. A. Arthur and children
from Brooks Alta. are living in town
for the winter months

Constable Phillips of the R.N.W.
M.P. of Lethbridge was a business
visitor in town last Monday

About one hundred and fifty cars
of stock passed through Bow Island
last week en route to Chicago, the
farmers and ranchers west of us are
selling their stock as fast as they can
owing to the scarcity of feed, especially
around the Pincher Creek district
where they generally ship hundreds of
cars of hay, this year they will have
to buy hay. Anybody that can hang
on to their stock will reap the benefit
later on as cattle are bound to be a
good price

Constable Bader is very busy
these days with police work and
rebuilding the kitchen of the Police
quarters

Mr. and Mrs. Herman Smith and
family left last Monday for Coalville,
where Mr. Smith has opened up a
poolroom

Mrs. A. Ostrum and daughter left
last week to spend a short visit with
friends at Calgary

Feed Mill, Bow Island

The new Schedule for C.P.R. Oper-
ators has now come into force for
Bow Island, and we have to extend
the right hand of friendship to Mr.
G. H. Wetherup, the new operator
at our depot, who takes the 3rd. trick;
we sincerely hope that Mr. Wetherup
will meet with friendly hearts and
smiling faces and have a cozy home
in Bow Island

The C.P.R. changed back to the
"old time" at 12 o'clock last Sunday
morning; very glad to see the back
of that Daylight Saving Hour, "good
night to it"

Bert Hands will ship his cattle to
his brother at Delta, this week for
winter feeding, as there is abundance
of feed there

Kelly, son of Bob Calder returned
from Rockford last Saturday. reports
crops very good but getting very cold
for threshing he says there are still
about ten days more threshing yet to
do. George Calder's son is still staying
up at Rockford

British Government May Not Resign

London.—The country is suddenly faced with the possibility of the resignation of the government or the dissolution of parliament, owing to the quite unexpected defeat of the government in the House of Commons by a majority of 72. Only about half the members were present, and the vote by which the government was defeated was 185 to 113. The Allies Bill, the earlier stages of which were disposed of during the summer session, was in the report stage. The committee had previously inserted an amendment withdrawing passage certificates from all allies, and the government sought by amendment to modify this restriction in favor mainly of the United States. French pilots, for whom special provision had been made in the existing Flight Act. This amendment, however, was defeated, although in charge of government whips.

The amendment of the figures was greeted with loud cheers from the opposition quarters, and caused much excitement. Andrew Bonar Law immediately moved amendment to enable the government to consider what course it should adopt. He admitted that the defeat of an amendment with government whips was a serious matter, requiring consideration, but he declined to admit that it necessarily implied the resignation of the ministry. This he declared would depend upon the view of the House of Commons as a whole.

Opinions on the situation, as expressed in the lobby, were conflicting, but, in view of the small attendance in the house it is thought that the government may decide not to resign.

French Ex-Premier to Be Tried January

Caillaux Will Be Charged With Intrigue to Bring About Dis-honorable Peace

Paris.—Joseph Caillaux, former Premier of France, on January 14 next is to face his accusers on a charge of intrigue to bring about a premature and dishonorable peace with Germany.

This was decided by the senate, sitting as a high court. The decision to set the trial on January 14 was reached by a vote of 80 to 67. The high court declined to accede to Caillaux' request for provisional liberty during the trial, or for the chamber of deputies election, the vote on this question being 100 to 36.

He has announced his candidacy for deputy for the department of Sarthe.

Corson and Balfour Change Portfolios

London.—It is officially announced that Earl Corson has been appointed Foreign Secretary, in succession to Arthur J. Balfour. Mr. Balfour has been appointed Lord President of the Council to succeed Earl Curzon.

U.F.O. Do Not Favor Coalition

Toronto.—There will be no alliance of the United Farmers of Ontario to the legislative assembly of the Conservatives or Liberals, but they may join with individual members of the old party in forming a government. This decision was arrived at by the members-elect of the United Farmers and U.F.O.-Labor after a lengthy session.

Following is the official statement of United Farmers of Ontario, issued by Secretary J. J. Morrison:

"The members-elect of the United Farmers of Ontario, after discussing the matter, have decided that it would be unwise for them to enter into alliance with either of the old parties. They are prepared to assume the fullest share of responsibility and form a government co-operated with some members of other parties, as are in sympathy with their platform and principles, and are free to give support thereto.

"In the formation of a cabinet, full consideration will be given to the various interests of the province. The cabinet standing in New Ontario is as follows:

The Kaiser's Telegram

Declared Breach With America Could Not Be Prevented and Could Not Be Helped

Berlin.—President Wilson's recent offer was a matter of little concern to the German Emperor, according to the evidence presented before the subcommittee investigating the war. Furthermore, the intervention of the United States apparently was not seriously considered by the emperor.

The incident caused a sensation and occurred during the examination of Count von Bernstorff, former German ambassador at Washington. The Socialist deputy, Dr. Stenning, turned toward von Bernstorff and said:

"The Kaiser's telegram, to which you refer, dated January 16, 1917, and addressed to Herr Zimmermann, former secretary, says: 'This majestic instrument me to thank you for your communication. His majesty does not care a bit about President Wilson's offer. A breach with America cannot be prevented, it cannot be helped. Events are developing.'"

"There was much excitement at the hearing when the message was read. Dr. Helfferich, former vice-chancellor, whispered: 'Monstrous!'

Dr. Stenning maintained that the peace conditions set to President Wilson on January 28, 1917, which were identical with the same as Germany offered on December 31, 1916, were really nothing like them. Everyone present approved the Kaiser's statement, and Count von Bernstorff exclaimed excitedly:

"Then I am told this today for the first time."

End of Bolshevism

Position of Volunteer Army, Despite Few Failures, Said to Be Settled

London.—A wireless message sent by General Denikin, anti-Bolshevik leader in South Russia, contains a message from Gen. Sikorski, who says:

"The position of the volunteer army is brilliant, it is now evident the end of Bolshevism is at hand."

The wireless dispatch adds the Reds began hastily to fortify the suburbs of Tula, when at a meeting Leon Trotsky, Bolshevik minister of war, declared that a general battle must be fought outside of the town.

Reduction of Farm Hours Opposed

London.—The central and associated chambers of agriculture have adopted a resolution warning the government that any reduction of the hours of the agricultural workers would seriously limit the increase in food growing, increase the cost of living, and diminish employment on the land.

German-Austria Title Abolished

Vienna.—The National Assembly adopted an act abolishing the name of "German-Austria" for the nation and substituting the title "Republic of Austria." The Pan-German party offered violent opposition to the change.

U.F.O. 45; Liberals, 28; Conservatives, 25; Labor, 11; Soldier, 1; Independent Liberal, 1. Total, 111.

U.F.O. list includes two candidates endorsed by labor, one endorsed by Liberals, and one endorsed by labor and veterans. The Labor list includes two also endorsed by U.F.O. Sir John Hendry, lieutenant-governor, was in his office in the parliament buildings during the time the cabinet was in session, apparently ready to receive any advance that might be forthcoming from the premier.

The difficulty with the members of the present government is the matter of deciding as to their proper course. Now that the government has been elected at the polls, they do not know what the United Farmers are going to do or what sort of combination may be formed in order that the government of the province may be carried on. Pending definite information from the United Farmers, the government will continue to carry on from day to day to discuss developments.

Newspaper Changes In U. S. Probable

Serious Newspaper Shortage Must Result in Drastic Conservation Policies

New York.—S. S. Cavallaro, one of the foremost newspaper publishers in the United States, in an interview to Editor and Publisher, predicts that the arising newspaper shortage and the consequent advance in price must result in drastic conservation policies if the newspaper publishing business is to continue on a sound business basis, and hundreds of newspapers are to be saved from extinction. Increased subscription rates, higher advertising rates and smaller newspapers are, in Mr. Cavallaro's opinion, inevitable if publishers are going to meet even part way the increased cost of production as represented by the enormous advances in wages, newspaper, machinery and other commodities, and service necessary to the production of a newspaper.

Evacuation of Two Big Towns Ordered

Col. Avaloff-Bernhardt Declares He Has Offered an Armistice to the Letts

Berlin.—The British naval commander at Libau, says a dispatch from Riga, has ordered the evacuation of Col. Avaloff-Bernhardt to evacuate Ust, Dvinsk (Dumond) and Thaumoville, in reply, said that after successfully following a strategic false for an of- fensive against the same as Germany offered an armistice to the Letts October 10.

He requested that his endeavors to obtain an armistice should be supported.

Britain Supplied War Material to Russians

Tremendous Number of Guns and Ammunition Has Been Sent

Viadivostok.—General Knox, chief of the British military mission, in a statement to the Russian Telegraph Agency at Vladivostok, says:

"Great Britain has furnished the Siberians and General Denikin with great quantities of munitions—hundreds of thousands of rifles, hundreds of millions of cartridges, hundreds of thousands of machine guns, as well as several hundred thousand sets of uniforms and equipments. Each cartridge fired this year by Russian soldiers was made in England by English material and by English workers, the supplies being shipped to Russia on English steamers."

Occupation Plans Outlined by Foch

Transportation of Allied Troops Will Be Completed By November

Paris.—Marshal Foch appeared before the supreme council to outline the preparations for the occupation of regions in which, according to the peace treaty, plebiscites will be held, and other military measures involved in the coming into effect of the treaty. There is reason to believe that the concentration and transportation of allied troops which are to occupy the areas will be ended by the beginning of November, so that the treaty could then be put into effect.

Hun Soldiers to Face Trial

Paris.—The first two members of the German military force charged with crimes during the German occupation of France have arrived at Lille, to stand trial. They are a non-commissioned officer, named Straus and Lieut. von Linlen, charged with theft and other offences at Halluin prison, respectively. They have been lodged in the Lille citadel pending trial.

Oppose State Purchase of Liquor

London.—Addressing the annual gathering of the United Kingdom Alliance, perhaps the most influential prohibitionist organization in Great Britain, Lord Liff declared that any statement which brought a measure for the prohibition of the drink traffic would not last a fortnight. A delegate who advocated a state purchase encountered much opposition.

"Please," Johnson addressed the meeting.

Riots Resumed In New York

New York.—Rioting broke out again around the Lexington theatre, where for the second time in a week the fire department was called to quell a riot.

German opera, over the protest of veterans of the world war.

Mennonites Must Comply With Law

No Deviation From Enforcing School Attendance Act

Winnipeg.—There will be no deviation from the rule of enforcing the School Attendance Act in Manitoba and Mennonites, like other sections of the community, will have to comply with the law. Dr. Thornton, minister of education, told a delegation of Mennonites which requested the government to postpone enforcement of the law.

The visit was the result of devoting the municipality of Hanover, Man., following legislation enacted at the last session of the legislature.

Previously Hanover had no public schools, but the government has mapped out the whole district into public school areas and two schools are already in operation and two others nearing completion.

Committee on Execution of Treaty

Lord Duxbury Appointed as Delegate to Represent Great Britain

Paris.—The nominations of various delegates to the committee on interpretation and execution of the International Peace Treaty were put on record by the supreme council. The nominations registered were:

France.—Stephen Pichon, the foreign minister, and Philippe Berthelot, political director of the foreign office.

Great Britain.—Lord Duxbury, the ambassador to France.

Japan.—Baron Matsui, ambassador at Paris.

Sufferings in Russia

Men, Women and Children Are Falling Dead in the Streets

Paris.—Pictures of Moscow's horrors are given in the figures by Russian princes arriving from Russia. "I will not speak of the terrible revolting and odious things that passed in the streets of Moscow," he said, "but only of the hunger inflicted I saw with my own eyes and which were repeated day after day. I met a woman and child, ragged and thin as skeletons, the child crying incessantly with an unchanging expression of terror. The mother said that the child was hungry and asked for a piece of bread as they had not eaten for twenty-four hours. I opened my purse, but the woman turned away saying, 'No, no money, but bread!'

"Another time I saw a blonde-haired young girl with arms outstretched, leaning the living crucifix against a wall and murmuring, 'I have hunger.' Next day she died. "I have seen children, hardly clothed, thin-checked, and with sunken shadows on their faces in the street trying to pick from the paving stones grains of wheat that the military use for food. I have seen before babies, men, women and children stretched on the cold stones, waiting through days and nights their turn to get their share of bread, and then often falling exhausted and dying at the door steps before they received it."

British Embassy in Berlin

London.—Walter H. Selby has been appointed provisional representative of the British Government in Berlin. He will open the embassy in Berlin soon as the peace treaty becomes effective. The Associated Press was officially informed to this effect.

Australian Gratuity

Brisbane, Australia.—Premier Hughes in a speech here announced that the soldiers' gratuity of £100 per month would be paid in negotiable bonds carrying 5½ per cent interest. The gratuity would cost the Commonwealth twenty-five million pounds sterling.

Bolshevik Defeated

London.—The Bolshevik forces have been being back in the Kamibare region, but 2,000 men, who were taken prisoner and many machine guns, according to Gen. Druzhnikov, wireless message. Extremely fierce fighting is reported in this district.

Refuse German Request

London.—The Supreme Council has refused a request from the German government that members of the inter-allied commissions in Germany not wear uniforms after the peace treaty comes into effect.

Naval Defence For The British Empire

Austrian Constitution Is Amended

Dr. Otto Bauer Chosen Chairman of Committee to Frame New Constitution

Vienna.—The national assembly has eliminated from the constitution adopted recently the provision declaring Austria to be a composite part of Germany. The elimination was determined upon to meet the terms of the peace treaty.

Dr. Otto Bauer, who has been re-elected as minister of socialization, has been chosen chairman of a commission to frame a new constitution for Austria.

Bulgaria Wants Trial Of Ex-Emperor

Demands the Arrest and Trial of King Ferdinand

Genoa.—A dispatch received here from Belgrade says the powerful party in Bulgaria demands the arrest and trial of King Ferdinand, and also of former Premier Radosloff and Malloff, as being responsible for the war and leading Bulgaria into misery and the loss of provinces. According to the dispatch, however, if the royal possession is demanded.

Sir Adam Beck May Retire

Will Not Stay as Chairman Of Hydro-Electric Unless With a Sympathetic Government

Toronto.—Sir Adam Beck, interviewed, said he knew nothing of the situation of the newspapers concerning his future course. He intimated that it was very doubtful if he would remain as chairman of the hydro-electric commission.

"On no account will I stay, except I am assured of a government that is in full sympathy with and behind the power development and hydro-electric projects," he said. "It would be useless to attempt to go on otherwise."

Delegates From Austria and Germany

Berlin.—The German and Austrian governments, it is learned, have decided to send delegates to the Washington League Conference, inasmuch as the supreme council of the allies has recommended their attendance as fully qualified members.

The delegates of the two nations probably will leave together for Washington soon.

Ottawa.—All Canadian ships sailing for ports in the United Kingdom will be obliged in future to carry a wireless installation and wireless operators, in order to conform to the requirements of an act passed by the British parliament.

Final Efforts To Avert Miners' Strike

Warships Bombarding Fortress of Kronstadt

French Vessels Reported Active on Forth; Are Able to Keep Beyond Range of Fortress Artillery

Copenhagen.—A dispatch to the Politiken from Helsingfors reports that French warships are bombarding Kronstadt from the sea and are being beyond range of the fortress artillery, owing to the long range of their guns.

Spanish King to Visit London

King Alfonso Likes English Life and English Sports

London.—The King and Queen of Spain are expected to arrive here for an indefinite visit. The King prefers to play the part of a private individual, rather than that of an official visitor, during his London sojourn, as he did at the Ritz hotel.

The king will spend some time shooting with the Duke of Westminster.

King Alfonso likes English life and English sports. He likes to play the sports shooting shop like any tourist and picks up a club when he needs it. The former King Manuel of Portugal and the Duke of Westminster are his intimates in England.

McMahon.—Admiral Jellicoe's report upon the question of naval defence for the British Empire and her colonies in the Pacific Ocean and Far East is now before the Australian House.

Lord Jellicoe remarks throughout the report that future danger to the empire and her colonies lies in the Pacific and the Far East. The second dominant note in the report is his insistence of the value of capital ships as the chief weapon at sea. Lord Jellicoe's apparent assumption regarding Canada is that she will readily put her share into vessels and their upkeep.

It is probable that the first vessels for both Canada and Australia will be a gift from the British fleet. He recommends that there be an Australian fleet of two battle cruisers, eight light cruisers and 13 destroyers, besides chief submarines and other subsidiary craft. This is based on the conception of an Imperial Far East sea-going fleet, comprising vessels of the royal navy, the East India Company, the Australian, Canadian and New Zealand navies. Upon these Britain would pay 74 per cent. While Australia would contribute 7.5 per cent, Canada 12.5 per cent, and South Africa and New Zealand the balance.

While Canada's percentage is thus fixed at a comparatively high figure, Lord Jellicoe proposes to bring up the charge against Australia and New Zealand by adding to the assessment in view of the fact that they are not called upon to pay any share of the cost in the Atlantic, by having the cost of the fleet on a basis of 74 assumed by the British in the Far East.

Bolshevik Destroyers Sunk

Three Hundred and Forty-six Lives Lost During Attack in Gulf of Finland

Stockholm.—Three hundred and forty-six lives were lost when two Bolshevik destroyers, in an attack on Estonian coast, were destroyed by British destroyers. The British destroyers, according to the Estonian official communication.

Four destroyers, fitted for minelaying, the communication adds, left Kronstadt with the object of supporting a landing of troops.

Wants Russia to Make Peace Offer

London.—Michael Terestchenko, former minister of foreign affairs in Russia, who fled to Sweden from his native country in 1918, has proposed to the state council at Moscow that Russia should make peace offers to the allies.

Final Efforts To Avert Miners' Strike

Washington.—While committees representing miners and operators, making a final effort to avert the strike of half a million miners on November 1 were on the verge of reaching an agreement, Secretary of Labor Wilson held them together, overnight at least, with a wage increase proposal that ignored union demands for a 30-hour week.

There was every assurance that the operators would accept it, and every indication that it would be rejected by the miners. Refusal of the miners to accept will bring the conference to a close and force the government officials to resort to other means to prevent the closing of the mines with the first approach of winter.

Spanish King to Visit London

King Alfonso Likes English Life and English Sports

London.—The King and Queen of Spain are expected to arrive here for an indefinite visit. The King prefers to play the part of a private individual, rather than that of an official visitor, during his London sojourn, as he did at the Ritz hotel.

The king will spend some time shooting with the Duke of Westminster.

Bow Island North

From our own Correspondent

Last Sunday Mr. Hugo Petersen accompanied by Mrs. Petersen and their little son were visiting at the farm home of their parents by the river, other visitors including Messrs. Pete Barr and W. Bruce Marsden.

Mr. Bradd Smith was out Sunday looking over his herd of cattle out on the range.

We are glad to have Pete Barr back in our midst again, Mr. Barr hopes to be in working trim in the near future and we are glad to hear that his recovery has been so swift.

Mr. Chas. Thompson was a business visitor to Bow Island, last Friday hauling out feed to his farm.

Mr. J. W. Little was hauling feed last Saturday from town, Mr. Little has certainly made the most of the fine weather, having done very considerable fall plowing in preparation for the spring rush.

The managing director of Pierce Conker Coal mines, is doing a roaring business these cool days. Mr. J. B. Pollitt feels very optimistic regarding this country for the new future, we wish we could all feel the same way.

That old gentleman known familiarly as the "Weather Prophet" certainly hit it correctly, when he proclaimed a severe storm centring on October 22nd. "O Gee" but she was a cool one! and it seems like as if its going to be a stayer too.

Thousands of geese are sheltering along the open water in the river, going off every night to feed in the wheat (less) fields in the surrounding country, returning at dark in their myriads, the river has frozen completely over in places.

Bruce Marsden rode into town Monday from his ranch, visited the editorial staff of the Review, here's one of his latest attempts. Let me introduce to you A paper with a heart Namely the Bow Island Review In this life it does it's part Being published only weekly It has all the local news It's hard working and keeps you smiling

All for Canada Canada for all

Canadians!
This is a call to National Service—
The Victory Loan 1919
which opens to-day.

YOU are citizens of no mean country.
Canada is a fair, free land.
Canada is your country.

Canada—now—has need to borrow from you—Lend:
Lend without restraint of politics or fine distinctions of creed or party.
The leaders of the political parties endorse the Loan.
It is CANADA that asks:
And why—

To clean up the last of the War's commitments and expenses;
To establish beyond all question the capacity and credit of your country;
To care for the wounded and maimed soldier;
To finance the bonus of the returned soldier already paid;
To enable the fruits of Victory to be garnered;
To ensure the prosperity of you, her citizens.
The guns of war are silent—but they are not yet cool.
The Victory Loan 1919 is a War Loan.
Canada's book of war is gloriously written—make this, the closing chapter, a worthy one. The responsibility is yours. **LEND!**

Death of Little Child

In Montana formerly of
Bow Island.

Doris Margery Howard, aged three years and six months, daughter of Mr. and Mrs. R. M. Howard of Big Horn Montana, died at the home of N. B. East, Saturday at midnight, after several weeks illness.

The little girl was taken suddenly ill at the home of her parents, and was at once brought to the Flat house in Hysham where Drs. Hagen and Pemberton held a consultation and the child improved for a time until she was supposed to be out of danger. But several days later she was again attacked with the same trouble, and gradually grew worse until death relieved her sufferings.

Dr. Chappel of Billings, was called in during the second illness, and consulted with the local physicians.

Much sympathy is felt by the entire community with Mr. and Mrs. Howard in their bereavement. Everything possible was done by loving parents but in vain.

The funeral services were held at the Community Church, at 2:30 o'clock Rev. T. M. Patterson conducting the services.

Royal Yeast has been the standard yeast in Canada, for over 50 years, and it is a well known fact that bread made with Royal Yeast possesses a greater amount of nourishment than that made with any other.

The 1919 Victory Loan

The people of Canada are once again asked to demonstrate their thoroughgoing Canadianism by adhering to the link of their financial ability to the Victory Loan, 1919.

Throughout the war the people of Canada never once failed to meet all demands made upon them by their country, and Western Canada in particular established a record of self-sacrificing patriotic effort unsurpassed in any province or country. Looking back over the history of the past five eventful years, the people of the West have nothing with which to reproach themselves, on the contrary, they have every reason for justifiable pride in their efforts and achievements.

The Great War is over so far as the fighting is concerned. It has ended in a triumphant victory for our cause, a victory made possible by the efforts of the five years now happily gone. But while the fighting is ended, victory achieved, and our soldiers home again, one very important part of Canada's war effort is yet uncompleted. The Victory Loan, 1919, is necessary to finish the work.

War is a tremendously expensive business, and modern warfare calls for an expenditure of money undreamed of in the centuries of the past. Canada pledged its honor to contribute all its power, resources and wealth to the winning of the war. We said we would go to the limit of our last man and our last dollar in such a just and noble cause. Our men went, thousands gave their lives, other thousands are maimed and suffering from wounds, all require to be again established in civilian life. The soldiers have done their part. They have brought honor to their country and glory to Canada. As soldiers their work is ended.

But Canadians who remained at home, and who, therefore, had the easier part, have still to finish their part of the work. The bills contracted to win the war must be paid. Furthermore, the expense of war is ended with the actual fighting. It cost millions to bring our soldiers home, and many more millions to care for and re-establishment. It requires millions for reconstruction work. Other millions are necessary to finance the sale of the products of the mills during this reconstruction period throughout the world.

This money must be provided, and it must be provided by the Canadian people themselves. The Victory Loan is the medium through which this necessary provision is made.

While, during the war, our boys went "over the top," they had an objective before them, and they had to fight for the credit of Canada's soldiers that they never once failed to reach their objective. But while the "store" troops went forward, our boys had the less spectacular but equally important work of "mopping up." All enemy dugouts, machine-gun nests,

subject, had to be accounted for, and a general "clean-up" carried out. If this was not done, and done thoroughly, there was grave danger in the final success of the operation.

Canada as a nation has reached its objective in the winning of the war. Now the work of "mopping up" must be attended to, all bills must be paid, and adequate provision made for our soldiers, and the necessary funds provided to keep all the wheels of commerce and industry turning in this Dominion. With Bolshevism and its constant threat throughout the world, it would be nothing short of a national calamity if business became stagnant in Canada and unemployment disastrous, and no man can foretell what the end might be. A large membership in Canada and the Victory Loan will avert such a disaster.

This is not a loan to the Minister of Finance. It is not a loan to the Government. It is a loan by the people of Canada to Canada itself. In other words, it is a loan by the Canadians to themselves in a collective capacity. It is a loan for national purposes, and every cent of the loan will be spent in Canada and thus redistributed again to the people of Canada. Canadians will receive the interest paid on the loan, and will ultimately receive back the whole of the principal sum.

If Canadians fail to subscribe the amount required, Canada must borrow when the young ones are liable to all kinds of lowly complaints. If young children have a shortage of the bowels do not experiment with new and untried remedies. Get me Fowler's Extract of Wild Strawberry. It has been used for the last 74 years. Don't accept a substitute and perhaps endanger your child's life.

Mrs. Willis Campbell, Sundridge, Ont. writes: "About two months ago my little girl, a baby two months old, had diarrhoea. I took her to the doctor, but to no avail. After he had given her up, I read of Dr. Fowler's Extract of Wild Strawberry, and immediately got a bottle. Within twenty days she was perfectly well. I cannot overpraise it enough. I have some poor sufferers all see this letter and read them a friend's life. Price 35 cents. Put up only by The Milburn Co., Limited, Toronto Ont."

There are more than 100,000 on the path that leads to a woman's cure. It testifies for itself—Dr. Thomas' Electric Oil needs no testimonials of its power either for colds, for cuts, for sprains, for rheumatism, for pains in the limbs or body, for which the medicine proves itself and needs no guarantee. This shows why this oil is in general use.

Sunflowers Ideal

Forage Crop

Careful Experiments to Determine Relative Values of Various Forage Crops

It would seem to be settled beyond doubt by the experiments of Professor G. H. Hutton, superintendent of the agricultural and animal industry branch of the Canadian Pacific Railway, conducted at its experimental farm at Strathmore, Alberta, that sunflowers are the ideal forage crop of this province. If returned in tons per acre are any criterion of crop values.

Two and a half acres close to the buildings on the farm were sown in rows three feet apart this spring, irrigated and properly cultivated between the rows, and the crop, which has just been cut and placed in silos, was accurately weighed, and the result showed a yield of 395 tons to the acre, green weight placed in silos. As there is moisture at the rate of 241 per cent, in sunflowers, this would give a yield of dry matter per acre of a little over six tons.

Corn raised under similar conditions at Strathmore returned 14 tons to the acre, and the moisture in corn being 73.2 per cent, the return in dry matter was 243 tons per acre. Peas and oats returned seven tons to the acre, and the moisture percentage in this crop amounted to 62.64 per cent, the weight of dry matter was 243 tons per acre.

Results as given by experiments conducted at the state experimental farm in Montana last year showed a high food value in sunflowers giving 100 per cent of the food value of corn, and the percentage in this crop amounted to 62.64 per cent, the weight of dry matter was 243 tons per acre.

The results will be watched with the greatest interest by farmers, ranchmen, and the public generally, to whom the question of forage for winter feed under irrigation conditions is a matter of supreme interest, and the results will be of great value to the country to sustain a much larger proportion of livestock to the acre than is possible under present conditions.

The Brazil nut tree does not begin to bear fruit until it attains the age of 30 years or thereabouts, and continues to produce crops intermittently; trees known to be hundreds of years old have produced crops.

A Nervous Wreck

BY DR. D. L. GRANTIER.

How many business men feel fagged out, nervous, with a "soggy brain"—a "fog" completely before the day and its tremendous tasks are half over? Try the right way! Clean the body first. That will help your nerves, your head and your circulation. Your doctor will tell you that anything from a headache or a common cold to grippis or a serious illness may result from allowing food to ferment in the intestines. Don't give the body a chance to absorb the poisons. Remove the toxins from the system and give the tissues of the body aid to resist disease by taking an occasional laxative such as castor oil, or a tiny pill made up of May-apple, aloin, jalap, and sold by most druggists as Dr. Pierce's Pleasant Pellets.

The kidneys and bladder suffer from the wear and tear, and we get chronic inflammations sometimes indicated by backache, painful voiding of water, dull, heavy feelings. Perhaps the uric acid is stored up in the system in excessive amount, and consequently when the urate salts are deposited in muscles and joints one suffers from lumbago (pain in back), rheumatic pains, gout, etc.

Nothing will act so nicely as "Auric" (anti-uric-acid), a recent discovery of Dr. Pierce's which can be had at all drug stores. "Auric" washes away the poisons, cleanses the bladder and kidneys—rendering them antiseptic—consequently one is soon cured of lumbago, rheumatism, gout, and the body is put into a clean, healthy state.

Increased Bank Clearings

The continued and increasing prosperity of Saskatchewan is reflected in the bank clearings at Saskatoon during the past month, when an increase of more than two and a half million dollars over the clearing house figures for September of last year, or practically forty per cent, was announced. This unusual increase is general throughout the province and is indicative of the progress and success of its population.

The Goodness of Apples

Because we like apples, we use them, but apart from that we use them because they contain healthful acids, needed minerals including iron, needed sulphur, long chains of energy, and some real nutrition.

True, an apple is 85 per cent. water, but so is milk, and the apple has 13 per cent. of sugar and starch.

Miller's Worm Powders will drive worms from the system and give relief to the child. The powders are easy to take, and they do not irritate the stomach, can assimilate them and welcome them as speedy exerts of pain, because they promptly kill the worms that cause the pain, and thus the suffering of the child is relieved. With so sterling a remedy at hand, no child should suffer an hour from worms.

"She withstood everything in the field and above all was, and still is, the last and only car to survive until the cessation of hostilities."—Extract from letter received by Ford Motor Company from a British Soldier, in Africa.

Over shell-torn roads, through water soaked fields, against only the tanks in its power to climb debris and crater holes, the Ford car made a world famous record in the fighting area of the great war. In press despatches, in field reports, in letters, in rhyme and song the praises of the Ford were sounded.

In France - 700 cars out of 1,000 were Fords
In Italy - 800 cars out of 1,000 were Fords
In Egypt - 900 cars out of 1,000 were Fords
In Mesopotamia - 999 cars out of 1,000 were Fords

G.W.V.A. GRASSY LAKE

The Grassy Lake Branch of the G.W.V.A. went "Over the Top" again on Saturday evening last, when they initiated a class of twenty-four candidates into the secrets of Social Membership of the Society. There was considerable nervousness amongst the female candidates as well as the male portion. But this was allayed when they were informed that owing to the non-arrival of the pamphlet necessary for the different degrees that only one of the number would be asked to undergo the ordeal as an example. For this purpose one of the candidates was asked to volunteer. After considerable hesitation Mr. Wm. Stuart McCrosbie cautiously raised his hand, and was in mediately declared to be the goat, he was forthwith escorted to the ante room and placed in the tender hands of the degree team.

Comrade McCrosbie has since stated that while the way seemed dark and dreary at

times, the obstacles he encountered on the "Rocky Road to Dublin" were sufficient to keep his mind on his job at all times, and was very reminding of what he had been told of the arduous trips the boys had to undergo enroute to the communication trenches, and the bombardment he received was very realistic. He wants to assure the uninitiated that the "gig" was not decayed, although it's date of Birth may have been prehistoric. It was very noticeable among the newly made members that while they sympathized with Comrade McCrosbie they felt inclined to shake hands with themselves that they had not been called on to cover the territory as "Chief Scout."

After the initiation ceremonies were completed the "Cook House" was sounded and rations were issued in the usual manner.

The entertainment committee reported a program for the balance of the evening. The
